    - Assign new roles
    - Discuss previous work day. Obstacles for new tasks.
- Discuss need for pair programming or group programming or solo
- Work on assigned tasks
- Check in with each other after 30 minutes at beginning of task
- After "lunch" 2:30 p.m. meet to discuss updates and plan for merge
- End of day code reviews

Team Expectations
- Vote if can't come to a decision - if draw - discuss
- Communicate respectful - don't hog mic, be open to others ideas
- Communicate any task delays or problems with group
- Be respectful of others time and allow breaks when needed
- If every member in the group can't come to a solution with the code after 15 minutes use a help ticket
- If individual team member wants to work after hours - can slack to see if anyone else wants to work with them - just keep group informed
- None of us will specialize in front-end or back-end
